SE2 - Energy & Emotion

Dr. Victor Frank taught, "**The Body weeps the tears the eyes refused to shed.**" In 1979 he introduced six touched-based methods of **neutralizing acute & chronic emotional scars**. He called it "Emotional Erase" and it was offered as a means to unload emotional baggage that was showing up as physical problems and barriers to a successful life. His student, Dr. Wayne Hirsbrunner, expanded upon the original Emotional Erases, adding 196 more, along with 30 Emotional Programmed Sequences. We will teach you how to use all of them.

We will also teach you how to use the dozens of emotional and energy vials developed by Dr. Brian Bateman and other students of Dr. Frank. In all you will learn **over 300 different kinesiology-based emotional techniques**.

Dr. Frank also developed a means to re-establish the Body's ability to **draw energy from the earth**, we refer to these as the "Energy Circuits." In addition to learning them you will learn a methods to draw energy from the atmosphere, re-establishing a sound electromagnetic field around the body.

The techniques you will learn in this course will better enable you to assist your clients who suffer from **psycho-somatic ailments, emotional distress, & chronic fatigue**.
