SUBTLE-INFLUENCE MEDICINE (SIM) Total Body Modification™ (TBM), a world leader in providing subtle-influence medicine (SIM) training for more than 40 years, is excited to announce that it’s entire “Master the Art of Healing” series will be offered in Las Vegas in 2019.

HUMAN BIOCOMPUTER & INTEGRATION OF MULTIPLE SIM TECHNIQUES TBM is a time-tested, easy-to-use system that synthesizes a vast array of SIM techniques into one cohesive system utilizing it’s pioneering work in accessing and programming the human biocomputer. These include soft-tissue manipulation, energy work, meditation, nutritional supplementation, neurosensory testing (“muscle testing”), lifestyle modifications, life coaching, distance healing, medical intuition, and articular adjusting (adjusting for physicians only).

PHASES OF HEALING: SOUND BODY, CLEAR MIND, OPEN HEART In TBM’s Phases of Healing program, practitioners guide their clients through a process that first restores the physical body. Once that foundation has been established, the focus shifts to improving mental clarity and emotional well-being. The client is then supported in vulnerably and compassionately pursuing their highest purposes, deepest sources of joy, and greatest areas of contribution. TBM affirms that the human body and mind will serve an ally, when properly supported, that will both naturally tend to it’s needs and catalyze a life filled with accomplishment, abundance, and inner peace.

LISTEN TO THE BODY, LIVE DRUG-FREE A significant component of TBM care is learning to effectively “listen to the Body.” In other words, TBM proposes that leading a mindful, aware, and inner-directed life is not only the way to achieve and maintain true health, but essential in expressing the gifts each of us have to share in life. In support of this, TBM practitioners facilitate their clients in minimizing mind and body numbing medications, allowing many of them to live completely drug-free.

ALL CAREER HEALTH & BODY PROFESSIONALS TBM’s Master the Art of Healing program is available to all career health & body professionals, including any one of many types of physicians, therapists, nutritionists, physical trainers, energy workers, life coaches, or anyone in between. Those who are in the process of transitioning to a career in the healing arts (e.g. students) are welcome to study with us as well. Anatomy & Physiology 101, or an equivalent, is required as a foundation.

PA1: Foundations of Healing (part one)
Physiological Reset (pt1) & Autonomic Recovery

This course begins with training on how to evaluate clients using neurosensory (muscle response) testing. Anatomical landmarks are reviewed to enable locating TBM Body Points and their corrections. Dr. Victor L. Frank, taught, “We have learned there are only two things to go wrong with the physical body. If a patient walks through your door they are dehydrated and they have a sugar problem.” Dr. Frank also labeled costal torsion ‘the great mimicker,’ since so many health issues resolve once it is addressed.

You will learn TBM’s procedures for correcting blood sugar irregularities, restoring hydration, and re-establishing proper costal alignment and movement. In addition you will learn TBM’s Autonomic Recovery Program (ARP). The ARP works to ensure durability of these corrections, as well as corrections in the other TBM courses as well. We’ll finish with TBM’s renowned closing sequence “Poison, Toxicity, Category IV which not only makes permanent the work you’ve done, but eliminates the ‘healing crises’ so common in subtle-influence medicine recipients.

Applying the material you learn in this course will reset the overall tone of the autonomic nervous system, safely detoxify the body, re-establish healthy regulation of blood sugar, and train your patients/clients on how to listen to their bodies’ needs. You will also be much more prepared to better help patients/clients with chronic pain, depression, anxiety, insomnia, organ-centered problems, fatigue, blood sugar issues, weight management, and addiction.

This module includes hands-on demonstrations by the instructor and student practice sessions and is required for PA certification.

PA2: Foundations of Healing (part two)
Physiological Reset (pt2) & Nutritional Support

In this course you will learn nearly 100 contact reflex points to evaluate components of the nervous, cardiovascular, genitourinary, endocrine, digestive, and immune systems. We call them Body Points, each of which has a tailored soft tissue correction that, when applied following a positive Body Point test, will restore proper operation of the bioprograms and lead to improved function, usually immediately.

Some of these points are for nutrients and make up part of our “Need & Use” evaluation. Learn how to use neurosensory testing to evaluate for nutritional deficits and determine the precise dietary changes &for enhancements will bring replenishment and improved function. As a result of having attended you will be better prepared to deal with patients/clients who struggle with chronic pain, depression, anxiety, insomnia, organ-centered problems, fatigue, blood sugar issues, weight management, addiction and those in need of general health maintenance.

This course includes hands-on demonstrations by the instructor and student practice sessions and is required for PA certification.

SE1: Myofascial Pain, Allergies, Cognition, Mening, Addl Body Points
Soft Tissue, Immune & Neurological

In this course you will learn subtle corrections for mechanical lower back, sacroiliac, and other pain syndromes. We will also teach you TBM’s renowned & revolutionary Harmonization sequence used with clients who suffer with allergies, infections, & toxicities.

You will learn over 50 additional Body Points & our Learning Enhancement techniques. We will also show you how to combine Body Points to address deeper &/or more complex situations, including eliminating joint pain, improving nutrient utilization, and breaking the cycle of multi-organ dysfunction.

Dr. Victor Frank said, “Mening is the most important tool we have in TBM.” We teach you the fundamentals our unique Mening process which dramatically reduces the time it takes to determine what you client needs and how to most efficiently fill those needs.

This module includes hands-on demonstrations by the instructor and student practice sessions and is required for SE certification.

SE2: Energy & Emotion
Energy

Dr. Victor Frank taught, “The Body weeps the tears the eyes refused to shed.” In 1979 he introduced six touched-based methods of neutralizing acute & chronic emotional scars. He called it “Emotional Erase” and it was offered as a means to unload emotional baggage that was showing up as physical problems and barriers to a successful life. His student, Dr. Wayne Hirsbrunner, expanded upon the original Emotional Erases, adding 196 more, along with 30 Emotional Programmed Sequences. We will teach you how to use all of them.

We will also teach you how to use the dozens of emotional and energy vials developed by Dr. Brian Bateman and other students of Dr. Frank. In all you will learn over 300 different kinesiologically-based emotional techniques.

Dr. Frank also developed a means to re-establish the Body’s ability to draw energy from the earth, we refer to these as the “Energy Circuits.” In addition to learning them you will learn a methods to draw energy from the atmosphere, re-establishing a sound electromagnetic field around the body.

The techniques you will learn in this course will better enable you to assist your clients who suffer from psycho-somatic ailments, emotional distress, & chronic fatigue.

This course includes hands-on demonstrations by the instructor and student practice sessions and is required for SE certification.

PC1: Pathologies & Specialized Physiology (pt1)
Comprehensive Immune, Neurological, & Cardiovascular

You will receive training in TBM protocols and techniques to help clients and patients who suffer with viral, bacterial, fungal and parasitic infections; degenerative conditions like lupus, multiple sclerosis, fibromyalgia, chronic fatigue; immunologic breakdown as seen in cancer and AIDS; neurodegenerative conditions like Parkinson’s and Alzheimer’s; suffering from cataracts; cardiovascular degenerative issues like erectile dysfunction, cardiac insufficiency and cardiac rhythmic abnormalities like brady & tachycardia.

You will also learn many additional Body Points as well as advanced techniques like Brain XYZ and Eyes-in-Distortion.

Join us and glean from the decades of experience Dr. Victor Frank, his mentors, and students have acquired in serving the seriously ill.

This module includes hands-on demonstrations by the instructor and student practice sessions and is required for PC certification.

10-11 JANUARY 2020

8-9 FEBRUARY 2020

14-15 MARCH 2020

18-19 APRIL 2020

16-17 MAY 2020
**PC2: Pathologies & Specialized Physiology (part 2)**
**Comprehensive Detoxification, Endocrine, & Adv. Techniques**

You will receive training in TBM protocols and techniques to safely detoxify the body of toxic metals, medication residues, & environmental chemicals stored in adipose tissues; repair the physiologic damage from vaccinations; assist clients with cholecyctic, hepatic & renal lithiases (stones); re-establish restorative sleep; support those who have been utilizing medications to manage diabetes, address lipomas, re-establish, energy balance and facilitate optimization of body composition.

You will also learn many advanced TBM techniques that can be utilized in a myriad of situations. These include Pathological Programmed Sequences, Resin, Rehydration, Slime, Degeneration/Regeneration, Dead, Levels, Targeting, Complexing, Symptom Hand Chart, & the Symptom/Zodiac Wheel. While the protocols and techniques is not direct healing of pathologies, it is certainly indirect support that often facilitates such healing.

Join us and glean from the decades of experience Dr. Victor Frank, his mentors, and students have acquired in serving the seriously ill.

This module includes hands-on demonstrations by the instructor and student practice sessions and is **required for PC certification**.

---

**PB1: Energetic Protection & Projected Meditation**
**Energetic Protection & Projected Meditation**

Dr. Victor Frank was a lifelong student of meditation. He would use it for personal healing as well as the healing of others. He would spend time most days visiting his “Sacred Garden,” a place of refuge, cleansing, and insight. He would also frequently visit his “biocomputer” and use it to search for dysfunctions within his body and instruct it to “autocorrect” them.

Once asked by a student what was most important after “sugar and water” Dr. Frank replied, “Protection!” In this course we will introduce you to your personal Sacred Garden and teach you how to access and utilize your Biocomputer. We will also expand upon what Dr. Frank meant by Protection, giving multiple techniques to enhance energetic protection, but most of all the Core Essence/Protection procedure that Dr. Frank visualized during a meditation that is part of the daily care and maintenance of our energetic body. While it is vital for everyone, it is of particular importance for TBM practitioners who are often interacting with clients as they release low vibration energies during attunement sessions.

This course is one of the most important that we offer in TBM as is super-charges the intuitive capacities and prevents the undesirable health consequences that so often plaque subtle-influence medical practitioners.

This module includes extensive meditation training and is **required for PB certification**.

---

**PB2: Backward Thinking™ & Advanced Healing**
**Backward Thinking™ & Advanced Healing**

Intuition and intellect are not contradictory. Dr. Victor Frank found that if he would first indulge his Educated mind the gates of the Innate mind would often swing wide open. He developed Backward Thinking™, a process to take advantage of and gratify the logical mind. “Get your logical mind out of the way and listen,” he would say, “Let Innate guide your hands.” In this course you will learn this systematic process and catapult your capacity as a subtle-influence medicine practitioner.

The “Advanced Healing” portion of this course is where we put the entire TBM process all together, not only for you to learn, absorb, and internalize, but also for you to receive personal healing. Come to this course with the TBM Basics in place so you may be ready to receive insights and solutions to remaining health &/or life issues that the Basics may not have resolved. You will learn by both observing the efficiency and clarity of the TBM process on others and then being the recipient yourself. You will leave this course being much more capable to of rapidly identifying exactly what is needing to be addressed by you with your clients and what the most direct path to lastingly resolve those issues. You are likely to experience greater health and a heightened capacity for “listening”

This course can not only be practice-changing, but also life-changing and is arguably one of the most valuable seminars in the TBM system. Make the choice to join us for this transformative course and experience the full beauty and power of TBM!

This course includes hands-on demonstrations by the instructor and student practice sessions and is **required for PB certification**.

---

**CE1: Core Antidote (pt 1): Core Inquiry, Core Belief, Core Truth Anchoring**
**Core Level Emotions**

This course introduces our Core Antidote process and includes Core Inquiry, Core Belief, and Core Truth Anchoring. Situational and Core Truth Coaching are taught in our “Advanced Emotional & Core Truth Coaching (CE2)” course.

The aim of the Core Antidote process is to eliminate all of the beliefs, practices, and circumstances that express an individual’s deepest fear (Core Falsehood) about themselves (e.g. evil, stupid, worthless) and, instead, achieve a state and life where those things all resonate with their brightest hope (Core Truth) (e.g. pure love, worthy, extraordinary). Our experience in TBM is that all illness, dysfunction, and disappointment come as a result of aligning with our Core Falsehood and that in order for comprehensive, lasting healing to occur a profound shift must occur.

Being aligned to our Core Falsehood activates the sympathetic nervous system (freeze, fight, & flight). When aligned to our Core Truth the parasympathetic system (repair, rest, & digest) is activated. Core Belief is the technique we use to realign an individual to their Core Truth. A person’s Core Belief is the mechanism which either pushes one towards what is not wanted (e.g. illness, poverty, sadness, loneliness) or draws one to what is wanted (e.g. health, abundance, joy, companionship).

Come experience this inspirational and fun seminar, you may just have a life-changing breakthrough of your own!

This module includes hands-on demonstrations by the instructor and student practice sessions and is **required for CE certification**.
CE2: Core Antidote (pt 2): Situational, Mission of Reform, Inner Parent/Child

Comprehensive Emotional & Core Truth Coaching

In this course you will learn how to make it so your patient/client will no longer need to avoid people, environments, and/or situations due to emotional distress, but rather be able to function anywhere and with anyone at their very best. You will also learn TBM’s life coaching program, empowering your patients to navigate daily and longterm choices with clarity, and enjoy peaceful and productive relationships.

Core Essence Coaching provides your patient in experiencing and re-aligning his/her life around his/her Core Truth. This technique and coaching system is a true “game-changer” and a must for all TBM providers who want to dramatically increase the ease with which wellness can be achieved and set their patients on a course of permanently maintaining that wellness.

A sampling of specific topics will include enjoying harmony between the masculine and feminine aspects of oneself, facilitating a nourishing and productive relationship between our inner child and inner parent, achieving a foundational, clarifying life epiphany, understanding and pursuing our primary life purpose, liberally and compassionately utilizing our voice, living in tandem with and drawing inspiration and personal power from the Universal mind, and neutralizing any distressing charges that linger from our past experiences.

Join us for this enlightening and empowering course!
This module includes hands-on demonstrations by the instructor and student practice sessions and is required for CE certification.

AA: Reflexive, Mechanical, & Manual Adjusting of the Spine & Extremities

Art of Adjusting Articulations

This course is a classic adjusting seminar. Whether you are an expert adjustor or just out of school you will increase your ability to find and adjust subluxations with confidence.

We begin with a discussion of the foundation of adjusting itself, contrasting it with general manipulation, and concepts like global vs. segmental subluxations. We then quickly move on to multiple adjustable techniques that draw from the work of many chiropractic’s early masters. These adjustable techniques will include: condyle lift, basic plane, level one, anterior atlas, inferior & posterior occiput, TBM sugar, temporomandibular joint, rib & spinal torque, sciatica, side-posture pelvis, prone lumbar, lumbar facets, rib heads, sacral base posterior (hamstring & piriformis), sacral spin, carpal tunnel, spinal discs, bicipital tendon, humeral head, clavicle, posterior fibula, lateral tibia, dancers foot, anterior femur head, basic energetic synchronization, cervical & pelvic instrument pattern, category IV - XV pelvic and shoulder blocking.

Join us take your sense of touch, feel, and thrust to a higher, more confident and effect level!

This course is limited to those licensed, or in school, for adjusting, includes hands-on demonstrations by the instructor and student practice sessions and is required for AA certification.

SI: The Methods of the Originating Post-Enlightenment Healing Masters

Origin & Evolution of Subtle-Influence Medicine

1783 was the inaugural year of subtle-influence medicine. The refined techniques of Dr. Franz Anton Mesmer were being disseminated in Paris via the Society of Universal Harmony.

Mesmer’s Enlightenment era system of healing first flourished throughout Europe and the UK, then made it’s way across the Atlantic to North America, where countless innovators expanded upon and further refined his original concepts of neurological supremacy, the power of subtle influences, and the importance of touch.

In this course we present Mesmer’s original techniques and a long list of the developments that led right up to the founding of TBM in 1978.

Join us for this inspiring and captivating journey into the roots of subtle-influence medicine. You’ll never see yourself, your patients or what you do as a healer the same again. You’ll be better equipped to fulfill the graduating mandate of the Society of Universal Harmony – Allez, touchez, guerissez! (Go, Touch, Heal!).

This course includes hands-on demonstrations by the instructor and student practice sessions & is required for SI certification.

Seminars taught by Megan Choy, ND, LAc

To Register: www.LiveTBM.com

For Assistance
Email: Health@TBMseminars.com
Call: (435) 652-4340

Our policy is that upon registering for a Total Body Modification, Inc. seminar or retreat you commit to arriving on time and staying until the end. Those that do not fully attend will not have it listed on their Provider Listing, and will not receive verification of hours for Continuing Education. Any exception must be approved prior to registration.

Course notes are included with cost of registration. A full-color illustrated manual is available for purchase at time of registration at a discounted rate of $150.

The TBM home office must receive and verify your supporting documentation in advance of the seminar or you will be required to pay the difference before being admitted to the seminar.

TBM is only taught to career health professionals and those actively studying to be career health professionals -AND- have a college level background in human physiology and anatomy (Anatomy 101 and/or Physiology 101 or equivalent).
