

PARIS FRANCE

This seminar will be taught in French

MODULE 3

KINESIOLOGICAL AND NUTRITIONAL SUPPORT FOR ADVANCED CASES

PATHOPHYSIOLOGY AND PATHOLOGY

Now that you have completed the Basics (Modules 1 & 2), you are ready for training in TBM techniques for helping patients who suffer with viral, bacterial, fungal and parasitic infections, degenerative conditions like lupus, multiple sclerosis, fibromyalgia, chronic fatigue, immunological breakdown as seen in cancer and AIDS, neurodegenerative conditions like Parkinson's and Alzheimer's.

Training is safely detoxifying the body of toxic metals, repairing damage from vaccinations. Protocols for kidney, gall bladder and liver stones are included as well. While all career health professionals are

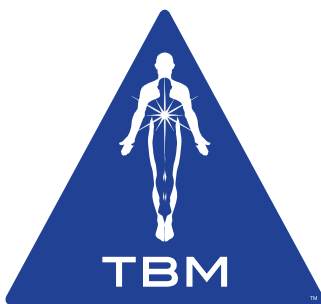

welcome, Module 3 is geared for those with some background in pathology such as chiropractors, naturopaths, medical doctors, dentists, nurses and osteopaths.

The information presented in Module Three is not intended to cure these conditions, but aid the practitioner in providing kinesiological and nutritional support to these patient populations.

Join us to glean from the decades of experience which Dr. Frank, his mentors and students have acquired in serving the seriously ill.

MICHAËL CHAMPEIX, DC

Our policy is that upon registering for a Total Body Modification, Inc. seminar or retreat you commit to arriving on time and staying until the end. Those that do not fully attend will not receive a certificate of completion, will not have it listed on their Provider Listing, and will not receive verification of hours for Continuing Education. Any exception must be approved prior to registration.
