

Name	Initial Date	COMPREHENSIVE ALLERGY EXAM					
Fundamentals							
Carbohydrate consumption curbed							
Hydration Reserve							
Need & Use: Omega 3s							
Basic Allergy Exam							
Amalgam Neutralization							
Mercury harmonization							
Bee harmonization							
Bee Pollen harmonization							
ALL (Allergies, Poisons, Toxins) Harmonization							
ALL Airborne							
ALL Canned Foods							
ALL Contact							
ALL Food							
ALL Ingested							
ALL Inhaled							
ALL Injected							
ALL Synergistic							
ALL Systemic							
ALL Intentionally Dispersed							
ALL Your Fat Cells Stored							
Next Steps in Harmonization							
Environmental - CPC							
Environmental - Tobacco							
Known irritants/allergens/triggers (write in):							
Environmental - Epicutaneous Test Kit Vial Set							
Food & Beverage & Environmental vials (below)							
Consult local pollen resource							
Consult local pollution resource							
Consult local water constituent resource							
Additional commonly needed vial sets							
Food & Beverage - Additive, Nat. Occurring							
Food & Beverage - Additive, Synthesized							
Food & Beverage - Beverage							
Food & Beverage - Egg & Dairy							
Food & Beverage - Fruit							
Food & Beverage - Meat							
Food & Beverage - Nut, Seed & Legume							
Food & Beverage - Spice							
Food & Beverage - Vegetable							
Environmental - Animals & Insects							
Environmental - Naturally Occurring							
Environmental - Plants							
Environmental - Synthesized							
Other TBM Corrections							
Integumentary System							
Respiratory System							
Acne - Programmed Sequence							
Asthma - Programmed Sequence							
Hypersensitivity - Programmed Sequence							
Itch - Programmed Sequence							
Nervous Dermatitis - Programmed Sequence							
Skin, Dry - Programmed Sequence							
Skin, Oily - Programmed Sequence							
Smoking - Programmed Sequence							
Products of Fermentation
